**Join us for our first session in the 2009-2010
Small Business Leadership Series
Using Technology in Your Business
Making it Work for You!**

**Thursday, July 16, 2009, 7:30-9:30 a.m.
Columbia Country Club
2210 N. Country Club Drive (off Old Highway 63)**

Today's technology is obsolete tomorrow. It's hard to keep up and even harder to know what is best for your company and your employees. Technology can be a positive force, but the wrong technology or incorrect implementation can dramatically impact your productivity, morale, efficiency and profits.

Join us for a discussion of how to decrease expenses, increase communication, foster community and keep employees happy through traditional, non-traditional and technological methods.

Our Presenter

Steve Powell is a serial entrepreneur. He is a member of Centennial Investors with holdings in several local businesses. He successfully built and sold his first business before he was 30.

Since buying Delta Systems in 2005, Steve has expanded staff from 4 to 15 and increased sales over 200 percent while growing Delta's reputation as the "go to" software development company in mid-Missouri.

Steve will lead a discussion of the best ways to use technology in your business...and anything else you want to discuss.

There is no charge, but you must register by calling 573/882-7096.

Funded in part through a cooperative agreement with the U.S. Small Business Administration.
